

Specification of Pool Glue Powder

Product Name: Pool Glue Powder

Properties:

Appearance: Fine Powder

Color: Clear

Chemical Composition: Chlorine-Free

Description:

Pool Glue Powder is a premium adhesive powder designed specifically for pool-related applications. This fine powder offers excellent bonding properties, ensuring durable and long-lasting results in pool maintenance and repairs.

Physical Characteristics:

Product type: pool glue Appearance of product

White powder, gray Packing pool glue: 25 kg bag, 50 kg bag Mixing ratio: 25 kg powder in 6.5 to 7.5 liters of water Consumption: 3 to 4 kg/m² Usable time after mixing with water: 3 hours Temperature during operation: +5 to +35 Thermal stability: -30 to +70 Applicable thickness: 2 to 10 mm Tile move time in run: 30 minutes

Application:

Pool Glue Powder is formulated for use in various pool-related tasks, including repairing vinyl liners, securing tiles, and bonding pool accessories. It provides a strong and reliable bond suitable for both underwater and above-water applications.

Usage Instructions:

Clean and dry the surfaces to be bonded.

Mix Pool Glue Powder with water according to the recommended ratio.

Apply the adhesive mixture evenly on the surfaces.

Press the surfaces together and hold firmly until the adhesive sets.

Allow sufficient curing time before exposing the bonded area to water.

Handling and Storage:

Storage Temperature: Store in a cool, dry place.

Handling Precautions: Avoid inhalation and direct contact with eyes and skin. Use suitable personal protective equipment (PPE) during handling.

Quality Control:

Each batch undergoes rigorous testing to ensure adherence to quality standards.

Chlorine-free formulation guarantees compatibility with pool environments.
