

Specification of Calcium Bromide

Colour	Silvery-white-metallic
Physical state	Powder, Liquid
Grade standard	Technical Grade
Usage	Industrial, laboratory
Phase	Solid
Hardness	Relatively soft metal
Crystalline structure	Cubic
Ductility	It can be beaten in to extremely thin sheets
Malleability	Capable of being shaped or bent
Melting point	Melting point is 842C
Boiling point	Boiling point is 1484C
